

## Parent/Guardian Technology and Internet Acceptable Use Agreement

I understand that Catholic Schools Broken Bay (CSBB) provides students at ***Our Lady of Perpetual Succour*** access to digital technologies, network and online services in accordance with Australian Privacy Principles and Catholic social teachings. These services are provided to support teaching and learning, and the development of digital citizenship knowledge, skills, behaviours and dispositions.

I recognise the role I play as the primary educator of my child, working in partnership with ***Our Lady of Perpetual Succour*** to:

- continuously develop skills and knowledge so I can model and promote safe and ethical digital practices that foster my child's wellbeing and their responsible use of any digital device or online service.
- assume responsibility for my child's use of digital devices and online services outside of school.
- support implementation of school processes, policies and guidelines in responsible use of digital technologies, network and online services - including its approach to resolving issues.
- communicate with school staff and the school community respectfully and collaboratively in working towards resolution of issues as they arise.
- support my child agreeing to appropriate use of digital technologies, network and online services provided by CSBB for my child's learning, as outlined in the [linked Acceptable User Agreement](#).

I understand the school's duty of care in applying due diligence to assessing the safety and security of online services that students use for learning purposes. I consent to the school acting as an authorised user to permit and enable my child's access to and use of these services.

I understand that in order for my child to access cloud-based online services, some data may be transferred, stored and processed externally to CSBB, in alignment with Australian Privacy Principles.

I understand that some online content may be objectionable and that CSBB cannot control what is available online. I understand that CSBB will take all reasonable precautions to minimise the risk of exposure to unsuitable online content and unwanted communication.

I understand that as part of CSBB's duty of care, nominated staff will be able to access, monitor, use and disclose data that is accessed and/or created by my child when using digital technologies, network and online services provided by CSBB.

I understand an age-appropriate Acceptable Use Agreement will be shared with my child, and believe he/she understands how to responsibly use digital technologies, network and online services provided by CSBB to support their learning as outlined in CSBB's [Student Acceptable Use policy](#).

I understand that behaviours in opposition to those outlined in the Acceptable Use Agreement may result in disciplinary action by the school in conversation with parent/carer. This may include loss of access to digital technologies, networks and online services provided by CSBB for a period of time as determined by the Principal and notification to authorities if required.

I understand that CSBB will not be responsible for any financial obligations my child incurs through inappropriate use of online services.
